**New Colourful Glow Range**

We are proud to introduce Glow - our brand new tufted carpet tile offering to the commercial market that is available in sparkling colours.

Glow provides an exciting new element to the current carpet tile offering in South Africa. The name Glow is inspired by the bold colours that make a statement. This product is regarded as fun and exciting and comes in ten bright colours and two neutral that encapsulate a youthful and vibrant look.

Glow is manufactured in our ISO 9001 and 14001 accredited factory in Durban and is available in an Enduroback modified recycled bitumen backing. The bitumen backing contains no PVC's, is very low on VOC's and is highly durable, therefore increasing the longevity of the carpet tile.

**New Design Shapes**

Responding to continuously evolving trends, Van Dyck Floors has recently created new Design Shapes to allow customers to think out of the box. These shapes are now available in selected ranges and are made upon request.

Design Shapes is a new collection of a variety of shapes used to create unique, one-of-a-kind exciting floor designs. These shapes are available in either plank sizes of 100 x 25 cm and 50 x 25 cm, or alternatively in Triangles (90°) and Hexagons (6 sides). Square sizes of 50 X 50cm remain available and other sizes such as 60 X 60cm and 100 X 100cm tiles can also be manufactured.

You can get Design Shapes in the Glow range and on most of our existing Van Dyck Floors products such as our popular needle-punch ranges Florpoint, PowerPoint and Director. Design Shapes is giving customers unlimited design flexibility in various textures and price points.
