RE: The Mozart Collection – Broadloom and Rugs - Great sales opportunity!

Dear Valued customer,

Following on from the discontinuation of our Weavecraft range, we would like to remind you of “**The Mozart Collection**” as a worthy new and innovative successor. I have attached, as a reminder, the specification sheets with pictures of the 4 designs available in the Mozart Collection.

We now have a range with 4 different designs in three colour palettes that offer an excellent, innovative, serviceable, affordable and proudly South African broadloom range that will be ideal for heavy residential/light commercial residential, hospitality bedrooms and loose rug applications.

The designs are all in line with current contemporary requirements and the added benefits of Stainshield fibre for excellent cleanability, make this an ideal floorcovering in these market sectors.

Add to this the fact that most of these designs are also available in medium commercial tufted tile options – ideal for the short- and medium-term rental offices where affordability and cleanability are key requirements.

In the current tight economic conditions, no other local manufacturer offers this unique quality and design offering at these affordable prices.

Please do not hesitate to contact your local Van Dyck Floors Representative or our customer service department should you require any further information.

Kind Regards

Eric Ward.
National Sales Manager.

The first South African company to achieve the Carbon Trust Standard for Carbon
